Assessment Projects for Campus Life, Fall 2008

1. Assess the new Student Government Association

   - Student Government Association students will successfully develop skills to evaluate funding requests made by student organization.
     ○ This will be evaluated throughout the academic year. Assessments will be made by asking the SGA members about their learning processes in evaluating and granting funding requests.

2. Assess the new student newspaper, “The Howler”

   - The Howler Staff should be able to organize and plan an edition of the student newspaper.
     ○ This will be evaluated by comparing the content and organization of the editions. Student growth in leadership will also be assessed through the functioning of the Howler business meetings.

The report on these assessment projects will be posted in Spring 2009.
