

<b>UnitID</b>	<b>Class</b>	<b>Gender</b>	<b>Enrollment</b>	<b>Additional Comments</b>
151388	1	1	2	I wish that Indiana University East would expand its course offerings with regard to Economics. I will probably have to transfer to I.U. Bloomington or Ball State in order to take the upper level courses that I need. Indiana University East claims that these courses are available online but they are not.
151388	1	1	2	I would appreciate it if the University would consider marking off a designated area for smoking on campus. That is my major bitch, is that I have to walk to my car that is inconveniently way out of the way of all buildings. I do understand that people deserve not to smell cigarette smoke during their university experience, but students that do smoke should not have to walk to the parking lots. I'm not suggesting the University put smoking areas by external doors to buildings, but maybe around the corner from them. A place where smoking students can socialize during their breaks instead of spending the time alone in their cars. Consideration on this issue would be greatly appreciated.
151388	1	2	1	Excellent educational experience.
151388	1	2	1	It would be nice to consider the age of the person when putting time limits on exams or a quiz. Our minds sometimes go blank when your put on a limit to perform.
151388	1	2	1	So far I have enjoyed my first year at IUE. I have some problems with a teacher but I think administration is working on it.
151388	1	2	1	I am a remote student and only take online classes. The Classes at IUEast are very good for distance learning.
151388	1	2	2	I wish that the business advisors, particularly accounting, were more informed about what is required for the degree and what isn't required. This is because I almost took a class that wasn't required at all, and my advisor told me that it was required.
151388	1	2	2	I am really enjoying the program. This has been a very real-life kind of experience for our cohort. Please keep this program going and to all the teachers...Keep up the good work!
151388	1	2	2	I am a little disappointed because IUE advertises that they cater to the working individual. Met with my advisor yesterday and there is one class available after 5pm. My boss will not let me leave for class and i am devastated.
151388	1	2	2	I wish I wouldn't have decided to go here. Party because of the gas I use and as well they expect you do things outside of school when they know most of us have jobs and don't live in Richmond and I dont think that is fair to ask of us.
151388	1	2	2	There needs to be more, and better informed, academic advisors for Secondary Education Math Majors. Academic Advisors should know prerequisites, semesters courses are offered, and how many credits are necessary for the majors they advise.

## National Survey of Student Engagement

NSSE 2009 Student Comments

UnitID	Class	Gender	Enrollment	Additional Comments
151388	1	2	2	I've had one teacher that did not tell us anything about any grades we had or didn't have in that class until almost the end of the semester. □ Another teacher I have makes us go through way more material than a 100 level class should.
151388	1	2	2	I enjoy all my classes and my experience at the Richmond campus. However myself and other IUE students at the Connersville location have been made to feel like unwelcome guests on an Ivy Tech campus. We do not feel like we belong. This is despite Pam's efforts to help and encourage us. It often feels as if she is the only one who wants us there. I avoid going there if I can. It would be nice to have those resources close to home, but I have started going to the library for computer projects. I may not take anymore Connersville classes.
151388	1	2	2	I find it ridiculous that teachers are not required to hand out a syllabus at the beginning of the semester that gives a rough idea of what will be done in class each day. Also, writing assignments on the board without giving a handout to go along with it is not okay. It's confusing, and I never remember what the assignment is when I copy it down from the board. When a teacher hands out a piece of paper with the assignment on it, it seems more concrete and official and I'm much less likely to forget about it. □ Also, I do not appreciate being treated like an idiot when I try to inform a teacher what works best for me.
151388	4	1	1	I enjoyed the types of classes and the structure of the classes. They had flexibility, which worked out perfectly with my working full time and attending part time.
151388	4	1	2	Do not spend unnecessary money on a gym facility that will only benefit a few. Spend the money on the curriculum. People do not have a choice when it comes to online classes. Then you have professors that make it even harder online. I suggest make more classes in class rather than online. Give the students a choice instead of telling them what to do.
151388	4	1	2	Great Experience over all.
151388	4	1	2	Teachers need to focus more on assignments that deal with the subject of the course and less on Service Learning or other non-course related topics. □ I have never learned anything from a Service Learning project other than the teacher's favorite charity. □ My American Indian History teacher is more interested in teaching how to write about history than actual history.

<b>UnitID</b>	<b>Class</b>	<b>Gender</b>	<b>Enrollment</b>	<b>Additional Comments</b>
151388	4	1	2	Up until this semester I have enjoyed all of my classes especially the history classes. This semester the only class I need to graduate and the first class since I returned to school that I do not want to attend. The entire class does not know what the instructor expects of us, she does not allow our opinions, they must be what she thinks. This 300 level class is being taught similar to a 100 level class and that is not what we took. The students in this class each have taken multiple history classes and have written numerous papers on the subject.but we are being treated as if we have never written a paper. It is very frustrating, but as many of us are graduating and we need this class to graduate we are sticking with it. Our main concern is that she is going to ruin our GPA's.
151388	4	1	2	Indiana University East has contributed heavily to my writing skills. I think in a more positive way and view life experiences from many angles. I have become more accepting of ideas from people that I do not know. My communication skills are much better than they were before I started with IUE. Now that I earned my degree, I credit IUE for changing my life in a way that will enable me to be prepared for life chaleenges.
151388	4	1	2	<p>The way the questions regarding diversity in education are phrased, it suggests to me that a low score on that trait would result in a suggestion for the university to "step up" it's diversity programs. I think that line of questioning is silly. <input type="checkbox"/></p> <p><input type="checkbox"/></p> <p>I'm not a bigot, and I really have no pronounced feelings, positive or negative, towards other races or classes. We just don't have a LOT of racial diversity here -- diversity awareness isn't something you can force, it's just something you can correct when people show a lack of understanding, empathy, or tolerance for other backgrounds. To that end, IU East has been perfectly fine.<input type="checkbox"/></p> <p><input type="checkbox"/></p> <p>Secondly -- there were a couple questions regarding whether or not my school has fostered or encouraged any spiritual development. I am paying tuition to be educated, not to develop spiritually. Please don't perceive my negative response as indicating I wish there was more -- this is a higher ed institution, not a monastery or church. <input type="checkbox"/></p> <p><input type="checkbox"/></p> <p>One last general comment is that I often feel some of the courses, particularly the low-level (100-200 level) ones, don't challenge students enough. Many of my younger peers are very whiny when they are pushed to do any actual work. I don't believe the correct response to this is to cave to their whims so that they'll like the prof or the course -- if we don't challenge them and push them to work harder by</p>

<b>UnitID</b>	<b>Class</b>	<b>Gender</b>	<b>Enrollment</b>	<b>Additional Comments</b>
151388	4	1	2	The only problem I have ever had at IUE was when I tried to get an SPSS statistical program from the bookstore and they gave me a defective CD and would not replace or even let me buy a different one. Other students had told me when they got the scratched disc the bookstore replaced it. The woman was very rude in the bookstore. This program would've enabled me to work at home and practice the statistical applications in it, thereby enhancing my educational progress instead of hindering it in a very challenging course (K300).As far as the campus atmosphere, I have to say the school doesn't go much out of their way to welcome, or even acknowledge non-traditional students. This school was founded on being all inclusive towards non-traditional students, and as a veteran of three different decades at IUE, I feel older students should not be ignored and marginalized like they are something to be ashamed of. But such is the price of progress,eh?
151388	4	2	1	My experience at IUE has been a very positive one. Most instructors have been very helpful and want students to succeed. I have met a lot of great people and what I have learned I have been able to apply to my current job.
151388	4	2	1	Instructor can be hard to get intuch with to answer questions. If I had to make the choice to do it over again I would not go here. Instructors are looking for students who fit a mold of some type, and if you don't, you are not worth their time.
151388	4	2	1	My instructors at IU East are always willing to help, guide, and encourage me. This is the third school I've been to since high school, and has the best instructors by far.
151388	4	2	1	Great value for the price. The faculty members really care about the educational success of their students.
151388	4	2	1	I couldn't say enough for IUE--it is an excellent institution for non-traditional students--supportive, flexible, encouraging!
151388	4	2	1	The only complaint that I have about campus is the lack of Academic Free Speech. You may speak only if you agree with what is being said if you do not I have seen professors ridicule students or put them down for their opinion especially with subjective issues. This is a one way only campus and there are those of us out there who are not in agreeance with this mentality. A campus should be a place were we value differences of opinion and respectfully and openly discuss their value in shaping who we are. It teaches respect for each other as valued members of society and that is greatly lacking on the campus at I. U. East. After all if you spout diversity then you should be the ones to set the example. Diversity really boils down to differences-the fact that we all are not going to always agree and that is okay! Being an older student I have had many students of all age groups make this complaint to me. I myself have noticed it time and again on the campus.

<b>UnitID</b>	<b>Class</b>	<b>Gender</b>	<b>Enrollment</b>	<b>Additional Comments</b>
151388	4	2	1	I received an excellent education when pursuing my Associate Nursing degree and would like to complete my BSN in the future if the university offers an online option, otherwise I will have to complete the degree somewhere else. I have spoken with IUPUI and researched the IWU online program, but would prefer to get the degree at IU East.
151388	4	2	1	I have been blessed to be in the IUE Nursing program and to have had the opportunity to work with the most excellent Nursing Faculty I could have hoped to meet. I have met the wonderful Diana Uhlman and her staff for assistance. Josephine and the bookstore staff have been the so helpful, as has the library staff to answer questions and provide help. My most fortunate online classroom encounters with Mardic Bergen and Joan Lafuze have allowed me to experience an ARTS and SCIENCE essence to my BACHELOR'S Degree program I would never had had the opportunity to experience otherwise. Despite working fulltime and completing nursing requirements, I am thankful I was able to finish my extra classes here at IUE. When ever I had questions whether from IT, billing, transcripts, parking, everyone at IUE is polite and kind. Thank you for a wonderful opportunity.
151388	4	2	1	Teachers have been great at this school. However, in regards to dealing with academic advising and admissions it has not been easy, and they have not been very helpful.
151388	4	2	1	I'm strictly a Distance Education Student, many of the questions don't apply so left blank.
151388	4	2	1	General Studies Major <input type="checkbox"/> Independent Studies Online
151388	4	2	1	All of my professors have been very knowledgeable, easily accessible, and focused on the students learning the course material as well as mastering good communication skills.
151388	4	2	2	n/a
151388	4	2	2	I would like to ask that advising be done in a more careful manner. Give each student the appropriate information and physical representation of their academic plan and expectations.
151388	4	2	2	I graduated in December 2008. I enjoyed my time at Indiana University East. My experience has helped to make me a more motivated individual, who is ready for the real world.
151388	4	2	2	The only additional comment I would like to make at this time, is to commend the faculty of the English department at my institution. I feel very fortunate to have nearly completed my degree under their instruction. Each member brings a unique strength to the area of literary criticism and writing. I would like to make it clear that if an M.A. or M.F.A. program was made available at this institution within the concentrations of English, I would not hesitate to continue my education at this campus.
151388	4	2	2	I am not very fond of online classes, especially regarding history classes... however most this semester were online.

<b>UnitID</b>	<b>Class</b>	<b>Gender</b>	<b>Enrollment</b>	<b>Additional Comments</b>
151388	4	2	2	I didn't feel like the faculty and administrators were flexible when it came to my academic plan and classes I needed to complete. I had a rough time finding faculty to do Independent Studies to complete my degree on time. I was made to feel like it was my fault there weren't enough students interested in my degree to offer the classes.
151388	4	2	2	I highly recommend IUE to other members of the community looking to attend college. Its been a great experience here, very welcoming, more personal experience with instructors due to them being approachable.
151388	4	2	2	iue is a very good school with a lot of qualities
151388	4	2	2	none
151388	4	2	2	Because this institution combines traditional students with non-traditional students, I feel the expectations are often unfair. I live 2500 miles away, am an executive with a non-profit and a single mom of two teenagers. For me to hold to the same rigid deadlines as a local student without the same personal commitments is unfair. However, I do bring in a great deal of life experience that they would not have. While I am excited to be able to finish my IU degree that I started 18 years ago, I would likely choose a program that primarily focuses on non-traditional students and their needs if I had it to do over again. I'm not interested in becoming part of the IUE community or socializing from other students, I want to learn, become better at what I do, and get my degree.
151388	4	2	2	The Social Work program has a better understanding of people than those people in other departments.
151388	4	2	2	The instructors should communicate better with students who are having difficulty in some area:paper writing, homework etc. All students do not automatically understand what is expected of them even if the syllabus has written instruction.
151388	4	2	2	I did not like the question about not having readings or assignments done because of the way it was worded. I have always had assignments done, but occasionally I will not have every page read out of the chapter reading.
