Charge to the Board

According to the Bylaws of the Constitution, the Board shall consider complaints concerning dismissal, academic freedom, reappointment, tenure, promotion, salary, merit, and the nature or conditions of work. The Board shall report annually to the Indiana University East Faculty Senate the number and types of complaints brought to the Board, shall provide a brief summary of each complaint, and shall indicate the number of cases in which it was recommended that the faculty member be sustained.

Report of the Committee's Activities

The Board received one complaint concerning denial of promotion and tenure. The Board made initial procedural recommendations on the case. Following this, the faculty member did not pursue the case to the point when the Board would have considered a formal hearing.

Respectfully submitted by Markus Pomper
