

Constitutional Change Proposal
Summary

All of the material contained in Article IV-"Committees", Section 5-"Faculty Senate Committees" of the IU E Faculty Senate Constitution will be moved to By-Laws Section V-"Committees, B. Authority". Article IV, Section 5 will be revised to read:

"The Faculty Senate shall have the authority to create, revise and eliminate committees as necessary."

By-Law Change Proposal
Summary

All of the material originally found in the IU E Faculty Senate Constitution Article IV "Committees", Section 5 "Faculty Senate Committees" will be added to the material already in place in the IU E Faculty Senate By-Laws Section V "Committees", B. "Authority".

Reasons for this proposal:

1. *Current committee descriptions are located in a number of different places in the Faculty Senate Constitution, By-laws and policies. This is an attempt to combine all committee descriptions in one place: the by-laws.*
2. *When the committee descriptions are located in multiple places, there are instances where there are conflicting responsibilities in the different locations.*
3. *This will help organize the Faculty Senate governance material and clarify committee responsibilities in context of the other committee responsibilities.*
