Agreement of Articulation
Ivy Tech State College and Indiana University East
Associate of Science and Associate of Applied Science
with Bachelor of General Studies Degree

This document will serve as an agreement by Indiana University East to accept credit hours (with a minimum of a C grade) earned at Ivy Tech State College, Region 9, in its Associate in Science and Associate in Applied Science programs. Technical credits will be distributed to the maximum allowable (30 credits as stated in SCS bulletin) to satisfy elective credit. Articulated general education classes will be distributed to meet the required arts and sciences requirements of the Bachelor in General Studies degree. In addition to the above defined credit transfer, each student's transcript will be reviewed on an individual basis for possible additional transfer credit to the Bachelor of General Studies degree.

This articulation will be retroactive to January 1997, for all courses except those general education courses articulated under separate agreements. This agreement does not include course work taken at other Ivy Tech campuses (except for the 10 mandated classes), nor does it affect any other campus of Indiana University.

Addendum to Agreement of Articulation
Ivy Tech State College and Indiana University East
Associate of Science and Associate of Applied Science
with Bachelor of General Studies Degree

This addendum presents the following clarifications regarding transfer of credits between Ivy Tech State College Region 9 Associate of Science (AS) and Associate of Applied Science (AAS) degrees and Indiana University East Bachelor of General Studies (BGS) degree.

1. Earned technical/program credits at Ivy Tech State College Region 9 will transfer to the BGS degree elective credits (to the maximum of 30 credit hours). This transfer is not dependent on the completion of an Ivy Tech State College degree.

2. Other earned Ivy Tech credits that are not covered in the above transfer, may be transferred to the BGS degree credits based on the Course to Course Agreement between the institutions. These transfers are not dependent on the completion of an Ivy Tech State College degree.

3. AS degrees will transfer to the BGS at approximately (but not limited to) 57 to 60 credit hours.

4. AAS degrees will transfer to the BGS at approximately (but not limited to) 45 credit hours.
